

# TaxLock<sup>TM</sup>

Hybrid solution to fight Tax Stamp counterfeiting

Dear Concerned,

In a world where counterfeiters are more sophisticated than ever, we help State Governments and Excise Departments to effectively fight Tax Stamp counterfeiting and wide spread tax evasion through the sale of second quality liquor. Quoting an old say, the strength of a chain is as strong as the weakest link. Similarly, a liquor supply chain can become fragile if there is no reliable and intelligent tracking. TaxLock<sup>TM</sup>, our new generation Tax Stamps protect the supply chain through its interactive and intelligent system, leveraging the advantages of both LASER Holography and Information Communication Technologies. Light Logics is a globally renowned document security solution provider and acclaimed with two consecutive gold medals from the world famous Lockheed Martin, USA for our technology innovations in holography.

TaxLock<sup>TM</sup> can help increasing the revenue by eliminating every possibilities of revenue loss caused by counterfeiting. A typical case study<sup>1</sup> reveals that liquor sales is increasing annually at the rate of about 25%. In a situation where counterfeiting prevails three times the legal sales, TaxLock<sup>TM</sup> can generate a revenue growth of many folds as shown above.

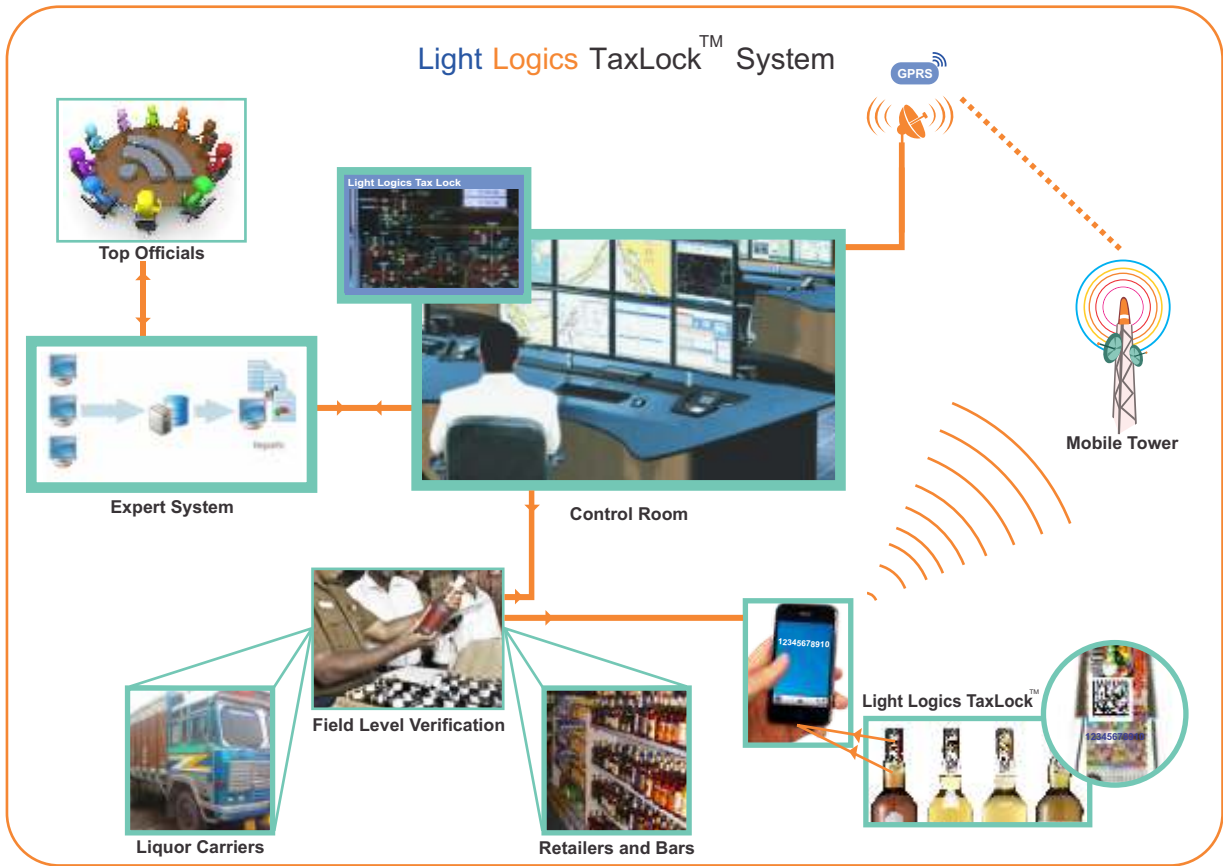

### Value Propositions

- Increase tax revenue from liquor sales by about 50%.
- Lightning fast authentication by enforcement.
- Improve operational efficiency of enforcement.
- Fail safe and intelligent system with tracking and tracing.

### Key System Features

- Machine readability.
- Onsite training for enforcement.
- Centralized surveillance of Tax Stamps.
- Consumer interactive system using GPRS.
- Intelligent software to support decision making.
- Option to interface and integrate with existing security systems.

## About TaxLock™

Light Logics is a pioneering technology company in the field of holography with an expertise tradition of over two decades serving the security needs of various industries and State Governments. We are the only Indian company qualified to supply strategic holographic elements to the Indian Defence.

TaxLock™ system consists of an intelligent expert system with control rooms and this system leaves scope for field level verification and customer interactivity, even from remote places. Its fool proof and intelligent alert system facilitates prevention of counterfeiting and reuse of tax stamps. The combination master hologram along with the encrypted unique ID lead to effective tracking in conjunction with the secure database and the intelligent alert system. It is lightning fast and unbreakable. Our expert system finds patterns from the data being captured and it helps decision makers to drill down to the locations where counterfeiting is most frequent. It also has the capability to generate a bundle of other reports.

Light Logics adopts industry standards and best practices to build TaxLock™ in order to eliminate vulnerabilities to threats. For more information and technical support please feel free to contact us.
